PROFESSIONAL SUMMARY

Motivated Information Technology student at LJ Engineering and Technology with hands-on experience building full stack web applications using Python, Flask, Java, and modern frontend technologies. Developed dual-panel systems with real-world features including event management, inventory control, and billing workflows. Strong foundation in DSA, OOP, and MVC architecture — eager to write clean, scalable code and contribute to impactful software projects.

TECHNICAL SKILLS

Languages: Java, Python, JavaScript

Frontend: HTML5, CSS3, Bootstrap, Tailwind CSS

Backend: Flask, Jinja2, REST APIs

Databases: MySQL, PostgreSQL

Tools & Platforms: Git, GitHub, VS Code, Jupyter Notebook, pgAdmin

Concepts: Data Structures & Algorithms, OOP, MVC Architecture

PROJECTS

SocioEvent — Event Management Web Platform

Feb 2026

Stack: Python, Flask, PostgreSQL, Bootstrap, Tailwind CSS, Jinja2, JavaScript **GitHub:**
github.com/khushd2910/SocioEvent

- Built a full stack event management platform with separate User and Admin portals, supporting the complete event lifecycle from creation and discovery to ticket booking and billing
- Implemented 15+ features including event sliders, card layouts, event detail pages, comments, likes/shares, offer management, my tickets, and user settings
- Designed a relational PostgreSQL schema to manage users, events, and bookings — enabling structured, efficient data retrieval across multiple related entities
- Developed a fully responsive UI using Bootstrap and Tailwind CSS, ensuring seamless experience across devices with dynamic components

SuperMall Management System

Aug 2025

Stack: Java, PostgreSQL, Data Structures & Algorithms

- Engineered a console-based retail management system in Java with dual-panel architecture for Admin and Customer workflows
- Admin panel: stock management, billing, revenue & profit tracking, offer management, sales report generation, and full transaction history
- Customer panel: product browsing by category, discount & name-based filtering, purchase flow, and detailed itemized billing
- Applied core DSA concepts — efficient search, filtering, and sorting algorithms — to manage and query the product catalog at scale

EDUCATION

B.Tech in Information Technology

2024 – 2028

LJ Engineering and Technology, Ahmedabad

CGPA: 7.43 | Sem 3: 7.92

Higher Secondary (12th) — CBSE

2024

KV ONGC Mehsana

80%

Secondary (10th) — CBSE

2022

KV ONGC Mehsana

81%

CERTIFICATIONS

- **Introduction to Java** — LearnQuest via Coursera
- **Data Structures and Inheritance** — University of Pennsylvania via Coursera
- **Introduction to HTML, CSS and JavaScript** — IBM via Coursera
